

Corrections Today Index, 1990-91

ADMINISTRATION AND MANAGEMENT

The Future of Unit Management, Robert B. Levinson, Ph.D., April 1991, page 44.

Hennepin County Sheriff's Department Provides Wide Range of Services, David Duryee, June 1991, page 126.

Minnesota DOC: Quietly Running One of the Best Correctional Systems in the Country, Dan O'Brien, February 1991, page 80.

The Missouri Experience: One State's Success With Unit Management, Timothy A. Pierson, April 1991, page 24.

Objective Jail Classification: Screening Jail Inmates—An Effective Tool for Improving Security, James

Austin, Ph.D., July 1991, page 80.

Of Prose and Cons: Judge's Ruling in Favor of Bureau of Prisons Has Effect on All Correctional Administrators, John R. Shaw, April 1991, page 190.

The Ten Commandments of Unit Management, Roy E. Gerard, April 1991, page 32.

Unit Management: A Concept That Changed Corrections, Robert B. Levinson, Ph.D., April 1991, page 6.

AMERICAN CORRECTIONAL ASSOCIATION

ACA Delegation Visits a West Berlin Juvenile Correctional Facility, Eu-

gene Miller, April 1991, page 182.

ACA Membership: Holding a Share in Corrections' Future, Anthony P. Travisono, December 1990, page 4.

ACA to Enter Crime Prevention Arena, February 1991, page 93.

ACA Welcomes New Jersey Correctional Officers, October 1991, page 16.

ACA's New Executive Director Charts Association's Course, James A. Gondles, Jr., October 1991, page 4.

After 17 Years, Executive Director Bids Farewell, Anthony P. Travisono, August 1991, page 4.

Delegate Assembly Report: ACA Improves Member Services in 1991, October 1991, page 68.

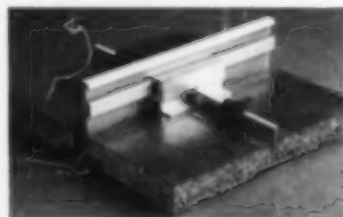

Diversified Revenues Spell Success at ACA, Edward J. McMillan, June

When push comes to shove... THEY CAN'T!

Steel-plate-backed Tectum acoustical panels in the new Tectum Security Ceiling System quiet things down in a hurry... much better than metal pan ceiling systems. And they can push all they want. They won't dislodge the panels in this locked-from-above super strong suspended grid system. Check our independent laboratory "forced-entry" tests. Yet you can get into the plenum area as needed through secured access panels. Now you have a better choice for day rooms, corridors, etc.

7 YEARS —

The longest, most comprehensive warranty available on the market today . . .

... only from

NOVIFLEX®

LAMINATED SECURITY GLASS PRODUCTS

- Seven-Year Warranty
- No Urethanes
- No Stress Cracking
- Greater Adhesion
- Better Thermal Expansion Matching Between Glass and Plastic
- No Toxic Fumes If Burned
- No Weakening With Age
- No Maintenance Problems
- Minimum Warpage

ALSO AVAILABLE —

PYROVUE

Pyro-vue™ is:

- A clear, non-wire glass panel
- 45 minute fire rated
- Can withstand up to 1800° F

Pyro-vue™ Applications:

- Vision panels
- Side lights
- Fire windows

Pyro-vue™ should be used in:

- Detention centers
- Hospitals
- High security areas
- Nursing homes
- Data centers

METCRAFT INC.
The Performance People A MASCO associated company

Announces a Major Breakthrough in Water Conservation **ULTRA-LO-FLUSH™**

The Stainless Solution

MEETS FEDERAL AND STATE MANDATED
1.6 GALLONS-PER-FLUSH SPECIFICATIONS

IT WORKS! NO PLUMBING FOUL-UPS!

ULTRA-LO-FLUSH exceeds ASME/ANSI
A119.1912M-1990 and A119.196M-1990
performance standards by more than 130%!

The Federal Government is seriously considering mandating low water consumption nationally! Florida, Georgia, Massachusetts, California and Arizona have already mandated low water consumption.

Metcraft's system incorporates the proven WCI "Flushmate"™ flushometer/tank that literally creates a supercharged flush action into a 14 gauge heavy-duty type 304 stainless steel fixture construction.

ULTRA-LO-FLUSH units are totally self-contained requiring no additional flush valves, vacuum, pressure, or electrical systems.

ULTRA-LO-FLUSH uses 1.6 gallons per flush saving 3.4 gallons of water over conventional units - huge savings can be realized!

Special Features: operates on supply lines as small as 3/8" and as little as 20 PSI dynamic water pressure - mechanical systems can be greatly reduced! Lower municipal hookup fees - reduced fixtures mean smaller treatment plants! Engineered to be "plugged into" conventional plumbing systems!

Pat Pending

"Flushmate" is a registered trademark of Water Control International

Life Sentry

Design with a Difference

In a detention facility, the lighting fixtures you choose could mean the difference between life and death. That's why before Kenall designs lighting fixtures, we consult with our experts—YOU! Kenall's Life Sentry™ lighting products have the features you most request—heavy gauge housings, high impact lenses and security hardware. Available for all levels of security in a detention facility, most Life Sentry luminaires comply with the 20-footcandle American Correctional Association accreditation standards.

To receive a free copy of Kenall's Life Sentry product guide, call 1-800-634-5013.

Come see us in booth #364 at the ACA Winter Conference in Portland.

INDUSTRIAL

Consultants • Engineers • Contractors

PLANNING

Professionals experienced in a variety of industries conduct comprehensive facility and program planning.

DESIGN

A team of industrial specialists provides industrial engineering for facility design, custom equipment design and product design.

EQUIPMENT

Equipment and machinery with the proven quality and ability to meet the functional requirements of the system, are selected from a resource of manufacturers.

INSTALLATION

Qualified field technicians assure proper installation and start-up of each system.

TRAINING

Technical job training specialists provide production training and reference manuals to put you "in business."

PARTS & SERVICE

Individual parts, machinery and equipment are readily available, as well as technical field service for installation, trouble-shooting and maintenance.

MANUFACTURING

Our newest addition of services provides comprehensive capabilities for specialized fabrication of equipment, custom fixtures, tooling and parts.

MAXIMUM SECURITY

DORMA HS Series Surface-Applied Door Closers

DORMA's 7800HS and TS83HS Series Closers are ideal for correctional facilities, financial institutions, government installations... anywhere there's a need to minimize opportunities for tampering, vandalism, or damage to the door hardware. Here's why:

- **TORX® security machine screws** with a security pin design, are used for all exposed fasteners to prevent unauthorized removal.
- **Full metal cover** is attached at four points with TORX® security screws to resist prying and wrenching.
- **Heavy-duty rivets or studs** are welded or pinned at all connecting points to minimize the possibility of disconnecting or disassembling the arm.
- **UL and ULC listed** and conform to the requirements of ANSI A156.4 Grade 1.

When anything less than maximum security isn't worth the risk, call toll-free at (800) 523-8483 or write

TEMP-TECH™ Stands-Up To Your Toughest Customers.

Our Thermal Bags Can Take The Heat. And The Cold.

Transport meals hot or cold in convenient TEMP-TECH™ Thermal Bags. A durable, yet lightweight design and thermal inner lining keeps food at optimal temperatures during transportation. Choose from 9 sizes and styles, all designed to accommodate most standard food trays.

Our Food Trays Can Handle Whatever You Can Dish Out.

Reusable TEMP-TECH™ trays are made of rugged, dishwasher safe, Lexan®. A tight-fitting lid locks in heat and freshness, reduces spills during transit, and snaps off completely for serving. With TEMP-TECH™ trays, meals can be frozen, microwaved, heated, maintained, and attractively presented. Trays are available in 3 or 5 compartment styles in four sizes.

Many Federal, State and County Correctional Institutions already use TEMP-TECH™ products to make food service work. To place your order, or to learn more about our complete line of meal delivery products, call: (800) 343-5579

What is the CT Index?

The CT Index is a listing of all articles published in *Corrections Today* from December 1990 to October 1991. It is a useful tool for those trying to locate a certain article, author or subject.

Virginia Criminal Justice Academy Seeks Trainers

The Northern Virginia Criminal Justice Academy is looking for trainers specializing in corrections management. Trainers are needed in the fields of new generation jail management, objective classification, record management, high-risk and emergency situations, alternatives to incarceration and intermediate sanctions.

Those interested in teaching at the academy should send a description of their corrections background to Truman D. Wilcox, Director of In-service Training, Northern Virginia Criminal Justice Academy, 4700 S. Chesterfield Road, Arlington, VA 22206; or FAX to (703) 845-0833. For more information, call (703) 845-8400.
